(+855) 69990111 | khimsopheak750@gmail.com | linkedin.com/in/sopheak-khim/ | Siem Reap, Cambodia

Geospatial Data Specialist with 4+ years supporting operational GIS in humanitarian, government, and research settings. Experienced in ArcGIS Enterprise and ArcGIS Online — managing hosted layers, web apps, and governance workflows. Currently deploying and coordinating a hybrid ArcGIS Enterprise and ArcGIS Online environment on Microsoft Azure for APOPO's mine action operations in Cambodia. Skilled in Python and SQL automation, spatial data QA, and remote sensing. Microsoft Azure AZ-900 certified.

WORK EXPERIENCE

LIMIS & Enterprise Systems Coordinator | APOPO Apr 2026 – Present | Siem Reap

- Deploying and configuring ArcGIS Enterprise on Microsoft Azure from the ground up — including Portal, Server, Data Store, VM infrastructure, NSGs, and Azure AD SAML authentication.
- Coordinating a hybrid ArcGIS Enterprise and ArcGIS Online environment supporting APOPO's mine action Location Intelligence and Management Information System (LIMIS).
- Integrating and maintaining ESRI applications including Survey123, ArcGIS Workforce, Dashboards, and Experience Builder for operational data collection and reporting.
- Managing user roles, permissions, and data governance across operational teams including IM Officers and field clearance staff.
- Supporting system monitoring, backup, recovery, and documentation to ensure platform reliability for 24/7 mine clearance operations.

Senior Technician in Geomatics | IRD (Fixed-Term Contract) Dec 2025 – Apr 2026 | Phnom Penh

- Managed ArcGIS Online groups to organise and share spatial datasets across international research collaborators.
- Developed interactive web maps and Experience Builder applications to visualise research outputs.
- Automated spatial data processing workflows using Python and SQL.
- Conducted remote sensing analysis: LULC classification, NDVI, NDWI, NDBI.

Junior Consultant – GIS Analysis | Ministry of Post and Telecommunications Jul – Nov 2025 | Phnom Penh

- Conducted spatial analysis assessing school internet connectivity and infrastructure distribution nationally.
- Engaged with licensed Esri distributors to evaluate ArcGIS Enterprise procurement; contributed to data governance and scalability discussions.

GIS Officer | The HALO Trust Cambodia Sep 2024 – Jun 2025 | Siem Reap

- Managed and updated hosted feature layers within ArcGIS Enterprise supporting live mine clearance operations.
- Maintained Survey123 and Field Maps workflows for operational field data collection and synchronisation.
- Performed QA/QC validation of minefield datasets (C1–C3 polygons, CMTS survey data) ensuring data integrity and operational safety.
- Produced dashboards, maps, and analytical reports for field teams, management, and external stakeholders.
- Applied group-based sharing and permission controls; delivered GIS and DGPS training to field and office staff.

Geomatician | IRD (Contract) Oct 2023 – Aug 2024 | Phnom Penh

- Georeferenced historical aerial photos; conducted remote sensing analysis for urban green space planning and LULC change studies.

GIS Technician & Land Surveyor | Ministry of Land Management, Urban Planning & Construction Aug 2021 – Jun 2023 | Phnom Penh

- GIS data collection and geospatial analysis with the Social Land Concession team; systematic land registration using DGPS and Total Station.

EDUCATION

BSc in Land Management (focused on GIS & Remote Sensing) GPA: 3.4 / 4.0 Royal University of Agriculture Nov 2019 – Nov 2023 | Phnom Penh

Thesis: Effects of land cover changes on surface urban heat island intensity in Phnom Penh — LULC classification using SVM, thermal imagery with NDVI/NDWI/LST retrieval.

SKILLS

ArcGIS Platform: ArcGIS Enterprise, ArcGIS Online, ArcGIS Pro, Portal, Server, Data Store, Survey123, Field Maps, Dashboards, Experience Builder, Story Maps, Workforce

Cloud & Databases: Microsoft Azure (AZ-900), PostgreSQL + PostGIS, SQL, Google Earth Engine

Programming: Python (Pandas, NumPy, GeoPandas, Scikit-Learn, Matplotlib, Folium, Plotly), Power BI

Remote Sensing: LULC Classification, NDVI/NDWI/NDBI, LST, Pix4DMapper, Agisoft Metashape (Advanced), Trimble eCognition

Languages: Khmer (Native), English (Fluent)
